

Meritor Parts

Meritor Part - Meritor is a leading international supplier which is proudly founded on a one hundred year custom of service and quality. They concentrate on various modules, integrated systems and parts to original equipment manufacturers and the aftermarket for the industrial and transportation trades.

Meritor prides itself in the company's distinctive energy and believes that this energy contributes to their competitive advantage in the international operations. The business values their customers and would like to guarantee their success while anticipating their diverse needs. Meritor starts with a culture which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring more than 11,200 individuals, Meritor promotes collaboration and innovation among a team of knowledgeable professionals.

Meritor strongly believes in just employing future focused staff. These top-caliber workers could rapidly adapt to changing surroundings and freely exhibit the level of commitment and performance required to be able to obtain results for the competitive market environment. The business empowers their teams to make sound business decisions to be able to enhance the overall success of the business. In return, Meritor offers all of their employees different chances for personal and professional growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that consist of axles, drivelines, braking and suspension systems meant for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is even responsible for supporting the requirements of all their international engineering personnel.

The Quality team at Meritor is a customer-focused and dynamic group who is committed to ensuring optimum progress at their production plants and aftermarket distribution facilities which are located on 5 continents and in 19 countries.

The supplier development network is specifically situated to support new business development. Regional teams are supported by worldwide centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making in every part of the trade. The DFSS or likewise referred to as Design for Six Sigma ensures product reliability within each region. The team is even comprised of transactional Green Belts who apply Six Sigma tools to business methods and apply lean methods.
